TEAM BUILDING THEMED DINNERS MARQUEES ACTIVITIES CONFERENCE & INCENTIVE MANAGEMENT

Team Building and Dinner...

Looking for a unique theme dinner that doubles as a team building programme? HQ's new World of Wearable Arts event starts a couple of hours before dinner when teams are given the challenge of creating a spectacular and wearable costume around a theme...using the collection of materials we provide. Local fashion and choreography experts are on hand to advise on creations and how the chosen models can really work that catwalk! The dinner venue is themed and the event really comes alive as the Wearable Arts creations are modelled between courses, together with some slick intros by the smooth MC.

Contact [HQ New Zealand](http://www.hqnz.co.nz) now to discuss how this could work for your next conference.

FISH Frenzy!

HQ's innovative new team building programme is inspired by the FISH philosophy of helping delegates and companies find their way to a fun and happy workplace. When we spend 75% of our wake-time doing work-related activities shouldn't we be enjoying it and be energised by it? The four main principles of FISH - Be There, Choose Your Attitude, Make Their Day and Play – are incorporated into games, team building exercises and adventure activities. Participants

will realise their potential to create a work environment which is fun and passionate by being involved and conscientious about what they do.

NEW dinner venue

Ever on the lookout for new and unique venues, we're excited about our latest dining adventure. Helicopter flights are so much a part of many activity programmes in Queenstown, using them for dinner is a natural progression. We can transform a functional helicopter hangar into an exclusive and fascinating themed dinner venue. Plus the hangar boasts some awesome views of The Remarkables.

Great concepts for a theme here

are Adrenalin Adventure or as a Mess Hall out of a M*A*S*H base. Even better, why not arrive at the venue by chopper or jetboat? Use as a Welcome dinner to hint at what's to come or at the end of the programme...when guests can be given the opportunity to chat to that crazy pilot they flew with a couple of days ago!

Take Your Team to the Top of the World...

We're proud to announce the new 'Everest' option for Peak Teams, our 'virtual adventure' indoor team building programme. Although a perfect follow-on option for clients who have completed the alpine options of 'Reach for the Summit' and 'Beyond the Summit', it has been designed as a stand-alone programme. On 'Everest', the teams' decisions become increasingly serious in nature, thus it is extremely effective for developing advanced leadership skills. Remember, we can provide Peak Teams anywhere in the world and every

programme is custom-designed to focus on your company's specific performance and behavioural goals.

Look out for HQ's Peak Teams' Roadshows around NZ in the coming months. Come along and experience the programmes first-hand.

Bringing the Golf Course to You

Introducing an innovative mobile GPS Golf Simulator now available anywhere in New Zealand. Shown here on the Westpac stand at last years INFINZ Conference in Christchurch, it will draw potential customers to your trade stand or reward your team at your next conference. Its functionality is endless, for instance delegates can play holes at over 40 international golf courses and competitions can be held for longest drive or nearest the pin. For more information on other options and how it could work at your next event contact [HQ New Zealand](#)
